Rex Roberts, #0138 - 66.5%.
Robert Tanner, #9056 - 0.0% **
Michael R Olson, #4143 - 75%.
Andrew Yant, #9337 - 70% **

** Disqualified by Chief Mechanical Inspector, for use if a cellular phone during the test.

Issued: 8 Fail: 9

The Board received a written statement from the Chief Mechanical Inspector of what he witnessed at the June 2017 exam. The Chief Inspector stated that P&I received a phone call to the switch board stating that one of the testers was using a phone to take his test. The caller describe the clothing and the seat location of the person. When the Chief Inspector entered the room, he stated that he saw the lite cellular phone in the lap of Mr. Turner. At that time Mr. Turner was informed that he had violated the testing rules that were explained by the proctor at the start of the test. He surrendered to the Chief Inspector. The Board voted to disqualify Mr. Robert Turner from testing for any Stationary Engineer certificate exam until July 10, 2019. Vote 3-0
