1819 Farnam Street, Suite 1111  
Omaha NE 68183  

REQUEST: Approval of revisions to Omaha Plumbing Board Policies.

**December 17, 2008 - Discussion:**
Mr. Wonder brought before the Board his proposal for revisions to the continuing education policy. This revised policy includes clarifications to current terminology and updated requirements for those wishing to obtain continuing education credit for hosting a class. These changes will be further reviewed by the Plumbing Board and will be discussed again by the Board at a later date.

**January 14, 2009 - Discussion:**
Mr. Wonder inquired as to whether the Board members had been able to review his proposed changes to continuing education requirements. He asked if the Board members had any questions or concerns with the proposed changes.
Mr. Miller questioned the definition of what constitutes a “clock hour” of time, and whether this hour should be defined as fifty minutes, or a full sixty minutes.

Mr. Wonder inquired of the Board how they wished to approve instructors under these new guidelines. Mr. Miller stated that those wishing to become Approved Instructors and/or Providers should be required to appear before the Plumbing Board in order to prove their qualifications and teaching experience. The Board concurred that the title of “Master Plumber” does not necessarily qualify a person to successfully teach continuing education material.

Mr. Wonder related the process he went through in order to obtain his certification to teach the IPC Plumbing Code. In order to become an approved instructor, Mr. Wonder was required to first observe a class, then to administer a class with the approved instructor, and finally administered his own class while being critiqued by the approved instructor. It was only after this process that he received certification.

Mr. Leo expressed his concern over the hours required to monitor such a system on the part of the City, and the fees required to attend three separate classes in order to obtain approval. Mr. Reed stated that the system described by Mr. Wonder could be used in order to certify an instructor without a sufficient amount of teaching experience.

Mr. Miller stated that all continuing education should be administered by qualified instructors, rather than simply having a group of plumbers sit and read the code book with their master plumber in the shop. Mr. Reed queried how the Board proposed to respond to the challenges that would inevitably come from those Master plumbers who are denied certification as Approved Instructors.

Mr. Wonder stated that under the new changes, all those wishing to obtain Board approval for continuing education classes would be required to submit copies of their course materials, including visual examples. They must also submit a detailed itinerary breaking down the subjects to be taught throughout the time period requested. Mr. Wonder further stated that he would be willing to appear before the Board as an applicant to become an Approved Instructor, and to act as an example for future applicants as to what will be required under the proposed changes to continuing education requirements. Mr. Wonder asked that the Board Secretary add him to the agenda for the next meeting of the Plumbing Board.

Mr. Wonder asked the Board if they wished him to make the necessary code changes and to put these new requirements into effect in the Plumbing Code. The Board members concurred that they would like Mr. Wonder to wait until after the next meeting, in order to allow more time for review of the proposed changes. This will also allow the Board to see Mr. Wonder’s presentation as an applicant to become an Approved Instructor/Provider.

**January 28, 2009:**

Jim Wonder appeared before the Board, requesting approval of the proposed changes to Omaha Plumbing Board Policies. These changes have been the subject of discussion at past meetings.

Mr. Wonder stated that he had made one small correction to the proposed policy. The deadline date to register for examination is listed as the first working day of March, June, September, and December. Mr. Wonder has changed this statement to the fifteenth day of the aforementioned months, in order to allow those taking examinations to learn their test scores before registering for the next examination.

Mr. Wonder asked for the Board’s input on these proposed changes. See file 9-1-18 for more complete information.
Mr. Reed stated that he would like for the other Board members to be present when this revision is voted into effect.

Mr. Wonder inquired whether he should make the discussed corrections to the policy before the next meeting of the Board. Mr. Miller and the other Board members replied in the affirmative.

Motion to hold this item over to the February 11 meeting of the Omaha Plumbing Board by Mr. Leddy. Second by Mr. Reed.

AYES: Estabrook, Leddy, Miller, Reed

Motion carried 4-0

February 11, 2009:
Jim Wonder appeared before the Board. Mr. Wonder stated that in the past few meetings, he had presented to the Board proposed changes to continuing education policies. He requested that the proposed changes be approved.

Mr. Wonder stated that the only change that had been made to the proposed policy was to change the deadline date for those applying for examination from the 1st of the month to the 15th of March, July, September, and December.

Mr. Wonder further stated that under these new regulations, applicants would be required to be a certified provider and/or instructor.

Mr. Leddy queried the proposed class size limit. Under the new guidelines, class size would be restricted to 50 people. Mr. Wonder stated that this was added to the revision in order to promote a better educational experience. This class size limit could be waived by the Board on a case-by-case basis. Mr. Leo asked Mr. Wonder if he still intended to sit in on new Code-related and plumbing theory classes. Mr. Wonder confirmed that he would indeed be willing to audit all first-time Code-related and plumbing theory classes to ensure accuracy of the materials being taught.

Motion by Mr. Estabrook to approve proposed changes to continuing education policies, with the revisions described above. Second by Mr. Leddy.

AYES: Clifton, Estabrook, Leddy, Leo, Miller, Reed

Motion carried 6-0

9-1-25
Robert Phillips
2616 N 71 St
Omaha NE 68104

REQUEST: Request to allow additional time to complete 2008 continuing education requirement.

Robert Phillips appeared before the Board requesting additional time to complete his 2008 continuing education requirements. Mr. Phillips stated that he broke his leg in mid-September of 2008 and has not been able to work since that time. Mr. Phillips is missing eight hours of continuing education.
Motion by Mr. Reed to grant an extension to June 1, 2009 to complete 2008 continuing education hours. If Mr. Phillips has not made up his missing hours by June 1, 2009, he must re-appear before the Board. Second by Mr. Clifton.

AYES: Clifton, Estabrook, Leddy, Leo, Miller, Reed

Motion carried 6-0

REQUEST: Approval of a 4 hour continuing education class.

Jim Bewley with the Metropolitan Utilities District appeared before the Board requesting approval of a four hour continuing education class. This class will cover MUD water rules and regulations, and will feature hands-on backflow testing, installation requirements, water tapping, and local plumbing, sewer, gas and water rules. The State of Nebraska has granted three hours of credit for backflow. Mr. Bewley stated that this class would be open to plumbers and sewer layers.

Mr. Bewley has given this class for the past five years. He stated that in the past, this class has had an attendance of well over one hundred people. Mr. Bewley presented to the Board an itinerary of the class.

Mr. Reed stated that this is the first class to be approved under the revised continuing education guidelines (See Case No. 9-1-18, above). Mr. Reed asked Mr. Wonder for clarification on how to proceed under the newly adopted guidelines.

Mr. Wonder stated that Mr. Bewley is requesting a number of things under the new continuing education guidelines, including:

- Approval of Jim Bewley as a certified instructor in MUD water rules and regulations,
- Approval of a four hour continuing education class,
- and finally, a waiver of the 50 person class size limit outlined in the new continuing education guidelines (See Case No. 9-1-18, above)

Motion by Mr. Reed to approve Jim Bewley as a Certified Instructor in MUD water rules and regulations; to approve the proposed four hour continuing education class for plumbers and sewer layers, and to waive the 50 person class size limit. Second by Mr. Clifton.

AYES: Clifton, Estabrook, Leddy, Leo, Miller, Reed

Motion carried 6-0
9-1-23
Brent Reeder
Sigma Corporation, Inc.
4611 S 139 Street
Omaha NE 68137

REQUEST: Waiver of Section 49-636 #5, Fixture Requirements.

Brent Reeder with Sigma Corporation Inc. and Ron Fucinaro with Fucinaro Excavating appeared before the Board. Mr. Reeder stated that Fucinaro Excavating is in the process of adding on to their existing facility to include a protected space to work on and repair company trucks. This additional square footage requires that an additional women's water closet and lavatory be installed.

Mr. Reeder stated that Fucinaro Excavating employs one female employee, on a part time basis. The current restrooms located on-site exceed the requirement for female employees.

Mr. Miller asked Mr. Fucinaro how many female employees are generally employed by the company. Mr. Fucinaro stated that although they have employed female truck drivers in the past, these employees are generally out on job sites, and do not use the facilities in the shop. Mr. Fucinaro currently employs ten male employees and one female employee in the shop. Additional employees hired during peak times report directly to the job site and not to the office.

Motion by Mr. Reed to waive fixture requirements, granting a ratio of 75% male, 25% female, or 25 men and 5 women for this occupancy only. Second by Mr. Leo.

AYES: Clifton, Leo, Reed
NAYS: Estabrook, Leddy, Miller

Deadlock; Motion denied 3-3

9-1-24
David Nystrom
Plumbers Local Union #16
4801 F Street
Omaha NE 68137

REQUEST: Approval of three 5 hour classes for State of Nebraska Grade VI Water Operator.

David Nystrom with Plumbers Local Union #16 appeared before the Board, requesting approval of three 5 hour classes for State of Nebraska Grade VI Water Operators. These classes will take place February 14, February 28, and March 7, 2009. All three classes have been approved by the State of Nebraska.

Motion by Mr. Leddy to approve Plumbers Local Union #16 as a Certified Provider for continuing education. Seconded by Mr. Estabrook.

AYES: Clifton, Estabrook, Leddy, Leo, Miller, Reed
Motion carried 6-0
Motion by Mr. Leddy to approve David Miller, Jeff Vogel, Bob McCart, and Steve Vogel Jr. as Certified Instructors in Backflow. Second by Mr. Leo.

AYES: Clifton, Estabrook, Leddy, Leo, Reed

REQUEST: Waiver of fixture count requirement.

This case has been withdrawn at applicant request.

9-1-27
Pat Shearman
Paragon Sales and Marketing
PO Box 24736
Omaha NE 68124

REQUEST: Approval of continuing education classes.

Pat Shearman with Paragon Sales appeared before the Board requesting approval of continuing education classes. He is requesting to become an Approved Provider and Instructor. Mr. Leo of the Plumbing Board has previously audited his classes. When asked, Mr. Leo stated that the class he attended was excellent, gave a lot of information, and included a PowerPoint presentation.

Mr. Shearman’s class will cover Rinnai tankless water heaters, including venting requirements, piping recirculation, and maintenance. There will also be an opportunity for hands-on demonstration. He offered to the Board a copy of the materials he uses during the class.

Mr. Sherman is requesting 4 hours of continuing education approval.

Motion to approve Paragon Sales as an Approved Provider for Continuing Education by Mr. Reed. Seconded by Mr. Leo.

AYES: Clifton, Estabrook, Leddy, Leo, Miller, Reed

Motion carried 6-0
Motion to approve Pat Shearman as an Approved Instructor in Rinnai tankless water heater installation and troubleshooting. Second by Mr. Leo.

AYES: Clifton, Estabrook, Leddy, Leo, Miller, Reed

Motion carried 6-0

Motion to approve requested continuing education class for four hours’ credit for the 2009 calendar year by Mr. Reed. Seconded by Mr. Clifton.

AYES: Clifton, Estabrook, Leddy, Leo, Miller, Reed

Motion carried 6-0

Pat Shearman with Paragon Sales appeared before the Board requesting approval of continuing education classes.

Mr. Shearman’s class will cover water softeners and filtration, including water testing and removal of chlorine. Mr. Shearman offered to the Board a copy of the materials he uses during the class.

Mr. Sherman is requesting 4 hours of continuing education approval.

Motion to approve Pat Shearman as an Approved Instructor in water softening and filtration by Mr. Reed. Second by Mr. Leo.

AYES: Clifton, Estabrook, Leddy, Leo, Miller, Reed

Motion carried 6-0

Motion to approve requested continuing education class for four hours’ credit for the 2009 calendar year by Mr. Reed. Seconded by Mr. Leddy.

AYES: Clifton, Estabrook, Leddy, Leo, Miller, Reed

Motion carried 6-0

Pat Shearman with Paragon Sales appeared before the Board requesting approval of continuing education classes.

Mr. Shearman’s class will cover RedWhite valves and Liberty pumps. The RedWhite valve portion of the class will cover a variety of different types of valves, including by not limited to ball valves, globe valves,
relief valves, strainers, gate valves, balancing valves, and regulators. The Liberty pump portion of the class will cover a variety of different types of pumps, including but not limited to grinder pumps, sump pumps, transfer pumps, residential and commercial drain pumps, and effluent pumps, and will focus on sizing and installation.

Mr. Shearman offered to the Board a copy of the materials he uses during the class. Additionally, Mr. Shearman offers a hands on demonstration of materials during the class.

**Motion** to approve Pat Shearman as an Approved Instructor in RedWhite valves and Liberty pumps; and to approve the requested continuing education class for four hours’ credit for the 2009 calendar year, with the stipulation that 1 hour of the class cover RedWhite Valves, and the remaining three hours cover Liberty pumps by Mr. Reed. Second by Mr. Leo.

AYES: Clifton, Estabrook, Leddy, Leo, Miller, Reed

Motion carried 6-0

REQUEST: Waiver of section 49-713, Water Piping

Steve Cross with the University of Nebraska at Omaha appeared before the Board. Mr. Wonder explained to the Board that a professor at the university is proposing to build an experimental zero net energy test house, to be located at 6454 Woolworth Avenue. This is a privately funded, university sponsored project. The university will not own the house, however, it will be lived in by university students who will monitor the house’s systems.

Mr. Wonder stated that this differs from the PATH house previously approved by the Board in that this house will not be sold to homeowners. Students living in the house will submit reports on the efficiency of the systems installed on a regular basis. These reports will be made available to the Plumbing Board.

Mr. Cross stated that the ZNETH project strives to prove that a house can be built that will produce more energy than it uses. Mr. Cross stated that they have filled a total of six trash cans thus far in the construction of the 3,000 sq. ft. structure, far less than the amount of trash produced in the construction of a traditional home. Mr. Cross further stated that the ZNET house hopes to be able to sell power back to the Omaha Public Power District in the future.

Mr. Cross offered to the Board information on the proposed water piping for the ZNET House (see file for complete information). The proposed piping is PEX-plumbing. Mr. Cross stated that PEX piping allows for greater flexibility in the house, as well as a reduced cost compared to cast iron or copper.

Mr. Wonder stated that he wished to make sure that this piping met NSF international standards for ultraviolet and chlorine resistance. Mr. Wonder stated that the Plumbing Division would recommend the approval of this alternate material.

Motion to approve proposed piping for this property only, contingent upon proof submitted by Mr. Cross that the proposed PEX piping meets the NSF international standards for ultraviolet and chlorine resistance. Additionally, monitoring reports must be submitted to the Board as they become available. Seconded by Mr. Clifton.

AYES: Clifton, Estabrook, Leo, Miller, Reed

NAYS: Leddy
Motion carried 5-1

9-1-31
Mark Vodicka
Mr. Rooter Plumbing
14634 Grover Street
Omaha NE 68144

REQUEST: Waiver of Chapter 7.

Mark Vodicka with Mr. Rooter Plumbing appeared before the Board.

Mr. Wonder explained that Mr. Vodicka’s company has been hired to repair a cracked pipe in a bank located at 9290 Dodge Street. The pipe in question runs under the bank’s vault. Mr. Rooter Plumbing is proposing to line the 5” pipe with a new material, rather than dig the cracked pipe up from the vault floor.

Mr. Wonder offered examples of similar products and the process of lining the interior of a pipe. In reviewing this material, Mr. Wonder felt that a Board decision would be required. Had this problem occurred on a typical plumbing job, this material would not have been considered for use. However, bank vault floors are notoriously thick and filled with obstructions which makes the possibility of trying to replace the pipe nearly impossible. Mr. Wonder stated that a City inspector will be on site at all times while this work is being performed.

Mr. Miller inquired as to how much of the pipe was going to receive this lining. Mr. Vodicka replied that the section of pipe to be repaired in this manner is approximately 80 feet.

Mr. Miller stated that he would normally oppose this usage, however, there is a hardship evidenced by the fact that the pipe runs under the bank’s vault.

Motion to approve waiver of Chapter 7 by Mr. Leo for this use and this property only. A City of Omaha Plumbing Inspector must be on site while this work is being performed. Seconded by Mr. Estabrook.

AYES: Clifton, Estabrook, Leddy, Leo, Miller, Reed
