Pablo Vidales and Dave Rucker appeared before the Board to request a waiver of sections 49-634, 636, 501, and 516. Mr. Rucker stated that their company has a ten year contract to clean railway cars at 120 Hickory Street. The company has two construction trailers without plumbing on site. Drinking water will be provided to employees, and port-a-potties will be available next to the construction trailers.

Mr. Wonder stated that the Board granted a waiver for a similar case in the past (see case no. 9-4-51 for complete information) however, the applicant in that case had a three year contract, and provided heated trailers with plumbing in them for employee use. Mr. Wonder stated that the plumbing division did not support the use of port-potties on this job site. Mr. Wonder suggested that the Board limit the timeframe of this waiver.

Mr. Miller agreed that he would not support a waiver which allowed port-a-potties on this job site. Mr. Wonder inquired whether Mr. Rucker wished to modify his waiver request, eliminating the port-a-potties and instead to provide a climate-controlled trailer with fixtures for employee use. Mr. Rucker agreed to this proposal.
