Mr. Wonder recommended that the Board deny this particular product as it would not meet the new standard for the new code. The Board made it clear that they are not denying linear drains – just this specific product. The product needs to be stainless steel.

Motion to deny this product made by Mr. Estabrook. Second by Mr. Salem. Further discussion by the Board ensued. Mr. Estabrook withdrew the motion for denial and made the motion to hold over case 14-12-181 until 1/28/2015. Second by Mr. Salem.

*12/10/2014*

Mr. Jesse Calabretto appeared before the Board requesting a waiver as regards a wall-hung toilet in a powder room on a residential project and linear shower drain. Mr. Wonder inquired if Andy Raymond was the plumber for this project. Mr. Calabretto stated Mr. Raymond is the plumber. Mr. Wonder stated that the City provided Mr. Raymond with two illustrations of how the wall-hung toilet should be piped in the past. The City would approve this if he adheres to one of the two illustrations Mr. Wonder provided to him.

Regarding the linear drain, Mr. Wonder has received some issues with another linear drain. Normally a drain has a clamping ring, and there is question as to how the pan attaches to this drain. Mr. Miller stated he has heard there have been issues with the bonding agent on this type of drain also. The Board agreed to hold this case over until the 1/14/2015 Board meeting so they can see the actual product.

Motion by Mr. Estabrook to approve the hall-hung toilet with the stipulation that it be installed per the city of Omaha specs given to Mr. Raymond in the past, 2) Motion to hold over the linear shower drain waiver until the next Board meeting on 1/14/2015. Second by Mr. Salem.
