</table>

Disposition: Approved 5-0. Approval of the 30% Design Submittal with the condition that the intersection be designed with a traditional form. Consideration should be given to the Board’s suggestion that the cast iron light poles be reused. The recommendation to lay the case over for 60 days, until the December 20, 2012 meeting, to allow time for the resolution of traffic control issues at the main intersection and to allow the Board to review other details of the streetscape, is supported.
